

Our Masterpoints have been accumulating since 2017.

Previously we used to accumulate only for the last 5 years and our Masterpoints Pass Mark threshold was 40 MPs for Mondays & 50 MPs for Wednesdays

We had a few members who asked the committee to change this procedure & not only accumulate MPs for only 5 years.

We had a look at the average MP for every year (exceptional of the Covid times where our play was disrupted). Every year we have an average of between 14 & 17 MPs.

The committee came to a combined decision that the MPs will now have a continuous accumulation every year and on 1<sup>st</sup> of January of every year the Masterpoints Pass Mark threshold will increase by 10 MP.

So this Year – 2023 the Pass Mark threshold will be 50 MPs for Mondays & 60 MPs for Wednesdays.

Following is just some information On Masterpoints from the NBC Bye-Laws

- 6.1 If you did not play for the last two consecutive weeks, your accumulated Masterpoints will be considered. (The accumulated Masterpoints are calculated from 2017 up to current.)
- 6.2 Both the partners must have Masterpoints higher than the number assigned for that year. This will be increased every year at the discretion of the committee, which will be relayed to the members.
